

Specialist Goods Transportation Policy

J Swingler Transport, a family business for over 100 years with expertise of Specialist Transportation (STGO-Special Types General Order).

Our Operations Manager has continuous and effective responsibility for all transport logistics including the specialist operation (STGO). The Operations Manager is appointed, trained and experienced in such works.

Additional support is available where Dangerous Goods are carried via our Compliance Consultant.

To comply with Environmental Act regulations, J Swingler Transport are registered as a Licensed Waste Carrier.

J Swingler Transport vehicles shall operate within the abnormal indivisible loads (AIL) and SGTO requirements and notify the relevant authorities as and when the load requires.

Whilst all vehicles have their heights shown within the cab. The driver shall measure the height before leaving to account for the additional height of the load. Our daily defect walkabout completed prior to leaving ensure compliance with all movement conditions relevant to the weight and dimensions of the vehicle and load.

Where required, the use of marker boards for over width and over-length projections shall be used in addition to STGO and abnormal indivisible load and hazard lights.

Management shall give full support to all those who endeavour to carry out this policy.

This policy will be communicated to all employees, contractors and other interested parties and will be reviewed at least annually for effectiveness and relevance to the business.
